

## Mission Statement for Member Companies

As a Western Sydney business, we accept that our environmental responsibilities are a vital and integral part of our operations. We are committed to attaining and maintaining high environmental standards and to work towards sustainability.

### Our goals are to:

- **minimise pollution**
- **conserve resources**
- **comply with relevant legislation**
- **contribute to our local community**
- **communicate with all our stakeholders**
- **monitor and report on our performance**

We recognise that it is desirable to progress towards more sustainable outcomes that reflect improved environmental performance, social responsibility and economic efficiency. **We shall complete the Western Sydney Industry Sustainability Statement annually and as a minimum, include information on:**

- **the validity of our activities**
- **resources consumed**
- **by products generated**
- **engaging our stakeholders**
- **the impacts of our products/activities over their lifecycle**

Our participation in the ISI program demonstrates our commitment to sustainable business practices; on-going monitoring and review of our activities and contributing towards a sustainable Western Sydney environment for the future.

As part of a demonstration of our commitment we will provide a cash contribution of \$2,500 as well as the in-kind contribution necessary to achieve the outcomes above.
